R&D AND TEST CENTRE

Within AUGER's company structure, the procedures handled at the R&D and Test Centre are supervised and managed by experienced engineers who have gathered to provide the best services to the customers.

According to the results arising from the customers located in various continents and the market research, the products we plan to obtain for our product portfolio are delivered to our engineers. The engineers, who know the details of each product very well, thoroughly examine the products and perform tests to find out where and how products operate. Following the detailed analysis of products, we proceed with further developments to ensure that we manufacture high quality products.

WAREHOUSES

Auger provides fast and timely services to its partners with its warehouses and offices in Germany, Russia and Romania in order to be able to store high volume stocks and to meet deadlines.

LOGISTICS

Auger's distribution network effectively and closely interacts with its customers therefore Auger is one step ahead of its competitors in terms of fast delivery of products and customer satisfaction.
